

BLACK TYPHOON SMG9 9MM SUBMACHINE GUN

SMG9 is a compact and durable select-fire submachine gun, chambered in 9mm. Its lightweight design, non-reciprocating charging handle, and foldable stock ensure perfect maneuverability.

The high-quality aluminum body and hand-guard structure allows it to carry many accessories simultaneously, such as suppressors, lasers, and flashlights. With the MLOK handguard and M1913 Picatinny rails, and multiple QD points, it is fully customizable.
